

# How to Set up & Use Google Cloud Platform (free tier)

---

## 1. Register for free tier

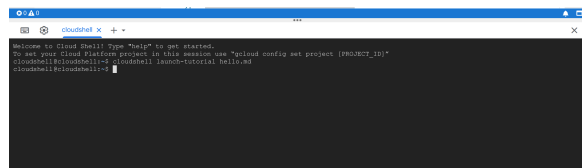

1. Visit <https://cloud.google.com/>
2. Click [Get started free]
3. Sign in your google account or create a new one
4. Input required information
  - Payment information will be asked even for free tier
  - *No charges are made after this verification process, unless you upgrade to a paid Cloud Billing account.* (see details: <https://cloud.google.com/free/docs/gcp-free-tier>)

## 2. Launch cloud shell

1. Click 'Cloud shell' button at the top-right corner

## 2. You will see shell at the bottom

## 3. Start tutorial programs

All basic commands are already available. You are ready to try Metall tutorial programs!
